19 **ORDER TO PROVIDE DOCUMENTS  
FOR *IN CAMERA* REVIEW**

20  
21 The FBI asserts that attorney-client privilege applies to redacted portions of Human Source  
22 Advisory Notices. At this juncture, there remain questions about whether some of the FBI's  
23 redactions properly protect communications protected by attorney-client privilege. Out of an  
abundance of caution, *in camera* review of those documents is appropriate to resolve the FBI's  
motion for summary judgment. Thus, the FBI shall provide the court the unredacted Human  
Source Advisory Notices within seven (7) days of this order.

24  
25 **IT IS SO ORDERED.**
